JuCad – founder of the Design Class

Over the past 40 years, the family-owned JUTEC Biegesysteme GmbH & Co. KG has successfully positioned itself on international markets with its luxury trolley brand JuCad. This highly innovative company was able to establish their trolleys in the luxury category in no time at all.

This German golf sports success story began in 1988 with the first collapsible designer golf trolley made of stainless steel with a 3-spoke rim. In 1998 JuCad developed the first electric trolley made of stainless steel, with cables and motors integrated invisibly in the axle. This marked a new milestone in the golf trolley industry and at the same time introduced a further technical innovation - the „invisible“ placement of both battery and control unit inside the golf bag. Many outstanding product highlights followed and JuCad continues to lead the way with its unique designs and ideas. Today the JuCad brand stands for innovative power, exclusive designs, perfection and a wide range of colours.

The JuCad Golf World

We invented the designer golf trolley and continue to shape its future with passion. We create sustainable value with our vision, integrity and idealism. Innovative products of the highest quality, long-term partnerships and ecological responsibility go hand in hand. Our JuCad trolleys are manufactured at five locations in Germany. Our vision of luxury design is a great love for the materials, highly intelligent design and a desire for simplicity and sustainability – Hand-crafted in Germany.

At the ultra-modern **JuCad Center** with its 2000 m² exhibition and service area, our JuCad team offers comprehensive advice on the vibrant variety of JuCad products and dealer training. The premises showcase the JuCad range of trolleys along with golf bag models and accessories. The service centre located on the second floor is equipped with state-of-the-art technical tools.

The image shows a large, modern exhibition space for JuCad. On the left, a wall is covered in a dense, colorful display of golf bags in various patterns and colors. The floor is a smooth, dark grey. In the center, several golf trolleys are displayed on white platforms. To the right, there are more golf bags and accessories on shelves. In the foreground, a small, artificial green golf course with a white flag is visible. The ceiling is high with a series of long, white, curved light fixtures. Large windows on the right side provide natural light. A JuCad logo is visible on a wall in the background.

High-end technology manufactured with tailored precision

For 40 years we have been passionately manufacturing tube bending systems for metal construction, pipeline construction, system engineering, the automotive and aviation industries and numerous other applications. Against the background of this manufacturing experience, we commenced developing complex tube bending parts for golf trolleys with our own machines in 1988.

With many years of experience and an aesthetic and functional vision, we are well positioned to achieve the highest standards for a perfect combination of design and materials. With unique vertical integration, we process three precious materials: titanium, stainless steel and carbon.

For our technically sophisticated trolleys, we combine state-of-the-art machine precision - for consistently high quality - with delicate craftsmanship of utmost competence. Most modern technology and the use of exclusive materials make every JuCad trolley an original with a lasting value. This is also what you experience with our first-class customer service, which never loses sight of the people beyond our products. This conveys a reassuring feeling in both our partners and ourselves.

The unique designs are created for golfers who appreciate superior quality. Highly efficient technology, such as intelligent positioning of the high-tech motors in the trolley axle, ultra-light weight, tailor-made packing dimensions - foldable or easily disassembled into very small units - and consistently elegant design, make each JuCad trolley an outstanding masterpiece. For the past 20 years, this globally successful, more than 100 employees strong, family business has been managed in second generation by Kira and Dipl.-Ing. Jörg Jung, MBA.

The wishes of our customers are our motivation to constantly improve and develop the right trolley for every customer. JuCad is the first manufacturer in the golf industry to offer their customers a personal trolley configurator online, thus reflecting the requirements and wishes of each customer. The JuCad brand is a hallmark of colour variety and has invigorated fairways with refreshing trolley and bag designs from the start.

JuCad is a winner

JuCad was the first golf trolley manufacturer to be appointed to the renowned German Design Council.

For over 60 years, the German Design Council has been an institution in German industry - with over 300 renowned members all of whose products have one thing in common: uniquely elegant and sophisticated design. The committee is one of the world's leading competence centres in the field of design and - as its members - is committed to fair competition.

German Brand Award: The German Brand Award is a prize for successful brand management in Germany. The award is consequently very sought-after because it credibly proves the brand's quality. The independent jury, composed of companies, science organizations, consulting, service industry and agencies, awards prizes to unique brands. JuCad was distinguished in the category „Industry Excellence in Branding“ in 2017, 2018 and 2020.

German Design Award: The German Design Award is one of the world's most recognised design competitions and enjoys an excellent reputation far beyond the specialist circles. Its objective: to discover, present and award unique design trends. The JuCad Ghost Titan e-trolley was awarded the German Design Award Winner in 2018 and the Ghost manual in 2020.

Plus X Award: The Plus X Award for the best brands and products worldwide, is the most important innovation award with regard to technology, sport and lifestyle. Worthy representatives for the Plus X award are only products which combine innovative technology, extraordinary design, ergonomic and ecological benefit, high-class materials as well as intelligent and smart handling concepts. The unique JuCad Phantom Titan was awarded three times in the categories high quality, design and ease of use. In addition, JuCad was honoured with the Brand of the Year Award for 2017 in the product category golf equipment.

Red Dot Design Award: The design competition Red Dot exists since 1954 and its award the „Red Dot“ is a worldwide approved seal of quality. Only the best products get awarded for their unique design. The JuCad Phantom with its worldwide unrivalled singlespokes made of full carbon and the JuCad Ghost Titan belongs since 2015 and 2018 to the selected choice.

iF Design Award: The award “Industrie Forum Design” is a prize for achievements in the design sector. This award has been presented annually for achievements in the field of product design since 1954. The innovative JuCad Ghost was awarded the coveted iF Design Award in 2018.

Leading German brands: JuCad, with its high innovation potential and unique design is presently one of Germany's most valuable brands and has therefore been a member of the group of leading German brands since 2016.

GMVD – Golf Management Association Germany: As member of the Golf Management Association Germany (GMVD), JuCad is part of the network of the professional institution and contributes to the improvement of apprenticeship and education.

In its Brand Study of 2018, the European Brand Institute confirms JuCad as Number 1 brand in the golf trolley category.

JuCad – streets ahead
through reliable and
secure technology

Electric JuCad trolleys 2.0 come with a very compact JuCad Powerpack and a small, handy fast charger. The extra light JuCad Powerpack weighs only 1.3 kg / 2.9 lb and is securely stored inside the golf bag to guarantee its long service life. It contains a secure high-performance lithium battery with an endurance of up to 45 holes and an energy recuperation system.

Endurance of
up to 45 holes

Audited and safe

Authorized partners of JuCad with the JuCad certificate are authorised to exchange original JuCad and JuStar rechargeable battery cells in JuCad and JuStar Powerpacks on behalf of JUTEC Biegesysteme GmbH & Co. KG. JuCad trolleys are handmade with the utmost care. Likewise we and our authorised partners handle lithium-ion technology with equal care ensuring that all safety aspects are complied with. Battery cells and control electronics as well as the chargers are tested and harmonised with each other. JuCad and JuStar Powerpacks are certified in accordance with UN transport test BU-202000217-B1 and comply with all legal transport and safety regulations.

We will ensure that only original JuCad and JuStar parts are used and thus guarantee full safety and warranty.

Magnetic plug for quick and safe connection to the trolley and during charging

JuCad Phantom Titan eX 2.0

Trolley art with exclusive equipment

The JuCad Phantom Titan eX 2.0 with its unique singlespoke full carbon rims is available including high-class equipment. The electric trolley comes with a practical transportation bag and a remote control. The latest generation intelligent technology package provides further comfort and includes quiet brushless motors with a double-sided electronic parking brake for secure grip on the steepest of terrains and an integrated charge state display.

The technical characteristics are equal to those of JuCad Phantom Titan 2.0.

art. no. JPHANTOMX2 | EUR 4,990.-

(Trolley including transportation bag and remote control.)

Details JuCad Phantom Titan eX 2.0:

- > simple operation with stepless rotary speed control
- > simultaneous fixing of height adjustable handle bar and upper bag support with JuCad Powerlock
- > rotary control switch for drive, reverse and neutral functions
- > automatic preset distance control button (10-20-30 m / yd.)
- > easy push or pull handling even without battery power
- > cables, motors and battery remain invisible
- > electronic downhill brake (cruise control)
- > high-tech singlespoke wheel rims made of full carbon
- > wheels with interchangeable air-cushion tyres
- > vast choice of wheel and tyre colours at no extra cost
- > amazingly flat packing size due to innovative folding technique
- > umbrella fixing system for JuCad umbrella
- > high performance lithium battery for up to 45 holes incl. energy recovery and charger
- > weight frame and wheels 6,5 kg / 14 lb
- > incl. handle protector
- > incl. transportation bag and remote control
- > integrated technology package: electronic parking brake on both sides, brushless motors, magnetic plug and charge state display

With the innovative folding technique of the JuCad Phantom Titan frame an amazingly flat packing size of only 65x60x11 cm / 25.5x23.5x4.3 inch is reached within seconds.

The JuCad Powerlock with hinged lever for simultaneous fixing of handle bar and upper bag support.

JuCad Phantom Titan 2.0

JuCad Phantom Titan 2.0

Unique trolley art

This electric titanium JuCad trolley is moving almost phantom-like over the fairway on its unmatched designer wheels. The elegant singlespoke full carbon rims are a sensation of their own. With these rims and the slender titanium frame, highlighted by the well known single bracked wheel support and the elegant handle bar with stepless speed control, the trolley seems to be floating. The latest generation intelligent technology package provides further comfort and includes quiet brushless motors with a double-sided parking brake for secure grip on the steepest of terrains and an integrated charge state display. The comfortable folding technique allows to bring the trolley within seconds to a super flat packing size and to store it away easily. Utmost driving comfort is guaranteed by the extremely stiff titanium frame, the powerful and noiseless 48V traction system with drive, reverse and neutral functions as well as automatic preset distance button and the optional remote control. Another highlight is the JuCad Powerlock that allows the simultaneous and flexible fixing of the height adjustable handle bar and the upper bag support. The JuCad Phantom Titan 2.0 will be provided with an extra flat carry bag and a separate wheel cover.

JuCad Ghost Titan 2.0

The folding Titan of the newest generation

The electric trolley JuCad Ghost Titan 2.0 with the two-spoke wheel rims and proven technical JuCad features moves super quiet over the fairways with the latest control and drive technology „brushless“. In addition to the electronic braking system, the electronic parking brake on both sides ensures that the trolley remains stable and firm on extremely steep slopes. Our new technology package includes the latest motor and parking technology, magnetic plugs and an integrated charge state display. With the sturdy T-handle, ambidextrous handling of the trolley is given, providing a secure grip on uneven terrain. In addition, a tilt-adjustable umbrella fixing system is integrated in the T-handle. The magnetic plugs of the charger, power pack and trolley are particularly convenient and provide a secure connection within seconds. The innovative JuCad Ghost Titan has been awarded the coveted „Winner German Design Award“, IF Design Award and red dot winner in 2018.

JuCad drive SL Titan Travel 2.0

The best-selling electric JuCad trolley made of titanium

Weighing only 5.9 kg / 13 lb the JuCad drive SL Titan Travel 2.0 is also a flyweight amongst golf trolleys. This super-light electric trolley in high grade titanium with a satin finish surface offers sporting elegance and maximum flexibility. The JuCad drive SL Titan Travel 2.0 has an additional push-joint to achieve its minuscule travel packing size. Given this folded size it will fit not only into the boot of any sports car but also inside the Travelcover in addition to your golf bag. An environment-friendly high-performance lithium battery provides ample power for up to 45 holes and is invisibly stored inside the golf bag. The latest generation intelligent technology package provides further comfort and includes quiet brushless motors with a double-sided parking brake for secure grip on the steepest of terrains and an integrated charge state display. The comfortable rotary control switch with D=drive, N=neutral and R=reverse functions together with the preset distance option add to the trolley's distinctive features. Of course, the elegant electric trolley guarantees despite its low weight absolute stability and it is, like all JuCad models, also suitable for heavy bags.

JuCad Titan, 3-wheel version

JuCad Titan

The sturdy lightweight titanium trolley

More than just any trolley – this ultra-light unpowered golf trolley in high class satin finish titanium for the discerning golfer is strikingly elegant and of lasting value. The large clip-on wheels running on quadruple ball bearings make driving this trolley especially easy. The height adjustable handle bar allows pushing or pulling that is easy on the back, keeping muscles relaxed. The JuCad Titan trolley is easily folded down to its mini packing size and can be accommodated even in the smallest sports car boot. The flyweight even fits into the Travelcover making it the ideal companion for the air travelling golfer. This sturdy trolley has no weight limit for the golf bag and is also suitable for the heavy bags of a Pro golfer.

Easy to fold

JuCad Ghost Titan manual

JuCad Ghost Titan manual

The foldable titanium push trolley

JuCad Ghost, the smooth-running unpowered trolley with its stylish two-spoke wheel rims moves extremely quietly and is easy to handle. Naturally, it also includes various other proven JuCad features. Thanks to its innovative folding technique, the elegant lightweight titanium trolley can be folded flat in a matter of seconds. The sturdy, ergonomic T-handle and the height-adjustable handlebar allow for ambidextrous handling of the trolley ensuring precise, fast and direct steering and a stable and reliable driving experience. Very convenient: the T-handle features a tilt-adjustable umbrella holder. The robust trolley is easy to clean and maintain. It is suitable for any bag size and weight. Sporty and lightweight, the JuCad Ghost push trolley offers maximum comfort with minimal effort for a relaxed game.

JuCad drive Stainless Steel 2.0

The comfortable electric trolley

The elegant JuCad drive electric golf trolley in high-quality stainless steel is in precision, robustness and functionality a competitive alternative to the exclusive lightweight electric JuCad trolleys in titanium. This comfortable trolley with a single push-fit connection and especially flat packing size can fit into most even small car boots. The latest generation intelligent technology package provides further comfort and includes quiet brushless motors with a double-sided parking brake for secure grip on the steepest of terrains and an integrated charge state display. An user-friendly rotary speed control and electronic downhill brake provide the same ease of use even on difficult terrain. The environment friendly power pack with its state of the art lithium technology is safely stored inside your golf bag – this guarantees a long lifetime of the technology and the design of the trolley stays sportive and elegant.

art. no. JDRIVE2 | EUR 3,290.-

JuCad Edition Stainless Steel, 3-wheel version

JuCad Edition Stainless Steel

The professional golf trolley

Timeless design and absolute stability guarantee a pleasurable round for the modern golfer. The unpowered trolley in quality fabricated stainless steel can be assembled or dissembled in seconds. The height adjustable handle bar provides for stress free pulling or pushing, leaving the back-muscles relaxed with no strain on the spine. The JuCad Edition Stainless Steel is extremely stable and will support the heaviest bags of golf pros. Its mini packing size when folded makes it an ideal companion for air travelling golfers when it fits also inside the Travelcover. The JuCad Edition Stainless Steel is always supplied in its robust and practical carry bag. This trolley is also available with a convenient arresting brake.

JuCad Junior Stainless Steel, 3-wheel version - bag Junior

JuCad Junior Stainless Steel

For our youngest golfers

The technical characteristics of this special model for children are similar to its „big brother“ JuCad Edition, made from stainless steel. The easily maneuverable lightweight with its small packing size is the perfect start for the youngest golfers. The height adjustable handle bar can be set to suit to your child's size and ensures pull or push operation of the bag-laden trolley that is easy on the back. With the JuCad Junior Stainless Steel golfing will be a simple pleasure for your children. The JuCad Junior can also be supplied as 2-wheel version or as electric trolley. For all young golfers up to 150 cm (4'10") height.

JuCad Carbon Travel Nero SV 2.0

High-end generation made of ultra-light full carbon

JuCad's latest high-tech carbon trolley with its matt black 3K look, reduced weight and increased tensile strength is extremely lightweight and includes highly innovative features. The integrated technology package 2.0 offers integrated double-sided parking brakes, brushless motors, magnetic plugs and charge state display for added comfort. This high-end electric trolley with its 3 spoke full carbon wheels in 3K design was designed to fulfil the most demanding requirements. Every component of the Nero SV (Superveloce) frame was designed in line with the motto „Design to Weight“: as little weight as necessary for maximum possible load. The JuCad Carbon Travel Nero SV 2.0 with its mini packing size of only 65x35x15 cm is the ideal travel companion. Together with your golf bag, it can be stowed inside the Travelcover, so you travel with only a single piece of luggage. Optionally available with JuCad remote control, saving you numerous trips thus allowing you to concentrate fully on your game.

JuCad Carbon Travel 2.0

The electric golf trolley with mini packing size

This carbon electric trolley in the elegant JuCad design is built in an elaborate production process of a carbon fibre composite material. Thanks to its extremely robust full carbon frame, which was specially designed by us for the particular demands on the golf course, this trolley features absolute stability despite its low weight of only 5.8 kg / 12.8 lb. The latest generation intelligent technology package provides further comfort and includes quiet brushless motors with a double-sided parking brake for secure grip on the steepest of terrains and an integrated charge state display. The JuCad Carbon Travel 2.0 trolley has a second push-fit connection to achieve a mini packing size for voyages. It is an ideal air travel companion and can be stowed in the JuCad Travelcover together with your golf bag – you travel only with a single piece of luggage. The stepless speed control, the automatic preset distance function and the quiet all-wheel drive train with its two high-performance motors make every round of golf a pleasurable experience. The JuCad remote control is an available option and would avoid unnecessary walking distances for an even more enjoyable round of golf.

JuCad Carbon drive 2.0

The modern electric trolley

The JuCad trolley Carbon Drive with its unique lustrous carbon surface is characterized by its user friendly technology and high quality finish. The elegant silhouette of the full carbon frame is free from the clutter of visible cables, battery or motors, which leaves it not obvious as an electric trolley. The latest generation intelligent technology package provides further comfort and includes quiet brushless motors with a double-sided electronic parking brake for secure grip on the steepest of terrains and an integrated charge state display. With only 5.5 kg / 12 lb this lightweight proves to be an absolute front-runner in the electric trolley league. Yet, this model has no weight limit for the golf bag. The stepless rotary speed control activates all movement as part of the proven JuCad technology to ensure comfortable ease of use. The powerful drive train can maintain the level of comfort even on mountainous region golf courses. After your game the trolley can quickly be taken apart for stowage in the carry bag or in the boot of your car.

Online trolley comparison

Please make use of the practical online model comparison. All important features and advantages of each trolley model at a glance - the easy way to the JuCad model of your dreams.

Show your colours with the modern JuCad wheel

1 Comfortable technology

The original JuCad wheel is simply plugged in – nothing more simple than that!

2 Tyres

These tyre colours are available for your trolley. The tyres can be changed at any time. (**EUR 60.-** for 2-wheel models, **EUR 80.-** for 3-wheel models).

3 Winter sleeves

JuCad winter sleeves allow you a comfortable and secure round of golf even in the cold season. The rubber spikes on the tires reduce ground contact by up to 75%, which allows a fairway-friendly driving and prevents spinning of the wheels. The 2 winter sleeves can be drawn quickly and easily over the rear wheels of your JuCad trolley. Art. no. JWR, **EUR 50.-**

4 Wheel rims

The choice of colours caters for all wishes in combination with your golf bag and outfit.

The original JuCad wheels are available in many colour combinations designed to match the exclusive JuCad golf bags. Rim and tyre colours can be freely combined, without surcharge. The JuCad wheel has a tyre profile specially geared for golf course conditions – the tyres can be changed at any time.

JuCad scorecard holder – a practical accessory for your trolley

The JuCad scorecard holder not only protects your scorecard, but keeps also important accessories such as balls, tees and pencil always at hand. The rain proof cover is provided with stainless steel hinges and a magnetic closure and available in various colours free of charge. With velcro glove holder at the bottom side.

1 Scorecard holder

Also for tees, golf balls and pencil. With velcro glove holder at the bottom side.

Art. no. JSH (GRP) **EUR 100.-**

Art. no. JSH-M (metal) **EUR 140.-**

2 Cover

The rainproof cover for the scorecard holder is available in various colours to match with your wheel rims.

3 Mirror

Unbreakable mirror made of stainless steel. Can be taped directly into the scorecard holder lid for a quick routine glance during your round of golf.

Measures 13x10 cm / 5x4 inch. Art. no. JSPI, **EUR 20.-**

4. JuCad score pencil, Set of 5

Compact and easy for recording your score. Set of 5, art. no. JBS, **EUR 2.-**

JuCad Tablet® – the multifunctional accessory for your trolley

With the help of the elegant JuCad Tablet® made of high-class metal in the colours titanium or black, your golf equipment is always at hand! The JuCad Tablet offers fixing options for the following equipment: 3 golf balls, 8 tees (wood- and plastic-tees), a pencil, a pair of gloves, a smartphone, the JuCad remote control, the JuCad golf towel, the JuCad GPS-holder or the JuCad cigar holder. Matching for all JuCad trolley models. The JuCad Tablet® received the status “registered design” by the EU Intellectual Property Office (EUIPO) and is therefore unique.

JuCad trolley accessories

The versatile range of high quality JuCad trolley accessories completes your trolley and adds to your enjoyment of the game.

1 JuCad remote control for more driving pleasure

The trolley can be controlled at any time either by the stepless turning control on the handle or with the clearly layed-out remote control for movement in any direction. Your golf equipment is therefore always at the right place sparing you unnecessary walking. Every JuCad remote control has its own unique transmission code to prevent misdirection – beyond the transmission range the trolley will come to an automatic halt. The JuCad remote control is an optional extra for all electric JuCad trolleys.

The top section features an additional zipped compartment, in the lower section a separate cool bag compartment will keep your drinks cold. Velcro fasteners for easy attachment to any JuCad trolley.

Art. no. JAC2, **EUR 59.-**

JuCad Cleaning and Care

Every JuCad trolley needs some TLC and the right care. For our electric trolleys in particular, a few things must be considered:

Especially since JuCad trolleys are virtually maintenance free, regular and above all appropriate care is all the more important. All moving parts and axle connections of the golf trolleys are coated with a transparent lubricating film ex works to ensure the highest possible driving and operating comfort. The transparent lubricant film may darken over time, so it is worth cleaning the relevant areas regularly.

Of course, your trolley will not always stay clean when in use and may accumulate grass, mud or sand. JuCad trolleys can be easily cleaned with a damp soft cloth (e.g. microfibre cloth). Any dirt accumulated on the wheels can be either blown off with compressed air available at the golf club or each wheel cleaned with a little water.

To maintain smooth operation of the moving parts we recommend regular cleaning and care of both wheel suspensions, the plug-in and folding joints as well as the bag holder joints. JuCad recommends the use of our maintenance set with special cleaning agent and care & protective fluid for all golf trolleys made of titanium, stainless steel and carbon.

13 JuCad maintenance kit

For cleaning and protection of all JuCad golf trolleys in titanium, stainless steel or carbon. Comprises special cleaning liquid, micro lubrication with nano-coating, axle protectors with cleaning fleece and microfibre cleaning cloth.

JuCad Bag Fly

2 in 1 – carry and cart bag

This JuCad carry bag scores in all respects, with a first league appearance and functionality. Thanks to its intelligent construction with a practical unfolding mechanism for the stand legs you may either carry it or place it comfortably onto a trolley. An integrated top handle and a lower grab handle make carriage of this 9 inch bag a breeze. The intelligent divider, including a soft rubber clip-lock system for the shafts, which keeps the clubs in place for a clear overview. A wide and fully padded dual carry strap ensures a comfortable and spine-friendly transport. You will be impressed by the lightweight of only 3.2 kg / 7 lb. A spacious full-length apparel pocket, a fleece-lined valuables compartment, a water bottle sleeve plus extra thermo pocket and more compartments offer plenty of space for all your golf gear.

EUR 159.-

Practical clip-system – ensures a firm hold of the clubs and reduces clanging club heads.

JuCad Sunday bag

Practise bag for the driving range or a quick round of golf

Details bag Sunday:

- > 5inch carry bag with two divisions
- > feet unfold automatically
- > anti-slip rubber feet ensure a secure stand on the ground
- > with towel hook
- > velcro fixing for golf glove
- > practical top handle
- > weight 0.9 kg / 2 lb
- > incl. single carry strap
- > incl. bag hood

The JuCad Sunday bag is featherlight and comes in an elegant but unpretentious design. The 5inch carry bag is made of extra light but hard wearing nylon fabric and serves perfectly for a short round of golf, the driving range or travels. Easy handling is ensured with a handy carry grip and a single carry strap. After your exercises the bag is easily stowed away. A small pocket for golf balls or valuables, two hooks for attaching accessories and a velcro fixing for your glove complete the practical features. The JuCad Sunday bag is an ideal training partner!

JuCad Putter - präzise und zielgenau

1 JuCad putter X900

The noble design of this stainless steel JuCad putter is eye catching. Striking are the CNC-milled face and the dual finish in glare-free mat optic. The middle pin is available in two colours and continues the target line for a precise alignment. The JuCad jumbo putter grip of the X900 ensures a firm hold and provides additional confidence and control on the green. A surprisingly forgiving and easy to play putter for a perfect feeling on the green. The JuCad X900 can be offered with a personal or name engraving (up to 20 characters on each side). With a mat black or mat white pin. Head weight: 365 g. Available in 32-36 inch, standard size 35 inch. **EUR 220.-**

art. no. JPX900-S (with black pin)
art. no. JPX900-W (with white pin)

2 | 3 | 4 JuCad putter X stainless steel

All JuCad's stainless steel putters are precision-milled from a single piece thus ensuring a stable and sensitive putt. The continuous target line and matt, glare-free finish facilitate alignment. The CNC-milled face allows for constant ball-roll of the ball and optimal distance control. The putters come equipped with a JuCad jumbo putter grip (in a variety of colours). The soft-grip material sits comfortably in the hand and guarantees maximum security and comfort on the green. Putter lengths available from 32 to 36 inch, standard size 35 inch. **EUR 200.-**

Three versions are available: the **Blade Putter** with an extra-narrow head, the **Half-mallet Putter** and the **Mallet Putter** featuring a large rearward tapering head.

right and left handed versions

Head weight 370 g, art. no. JPX800 (large)

5 | 6 | 7 JuCad putter X matt black

The matt black putter series features high level craftsmanship and stands out through its sporty, elegant design. Precision-milled from a single piece, the triple-line layout – especially the solid red sight line – and the matt glare-free head contour support precise alignment. The grooved striking face intensifies ball contact and ensures a well-controlled, straight roll of the ball, even at a distance. The putters are equipped with a JuCad jumbo putter grip. The soft-grip material sits comfortably in the hand and guarantees maximum security and comfort on the green. Grips can be chosen from a variety of colours. Putter lengths available from 32 to 36 inch, standard size 35 inch. **EUR 250.-**

Three versions are available: the **Blade Putter** with an extra-narrow head, the **Half-mallet Putter** and the **Mallet Putter** featuring a large rearward tapering head.

8 JuCad putter Titanium

A unique putting feel is provided by the CNC-cut JuCad titanium putter. The heavy and low weight distribution gives good balance. The head is manufactured from solid titanium with a precision cut putting surface ensuring a reactive feedback to learn from the feel your putt. Delivery with convenient JuCad jumbo putter grip. Head weight: 450 g. Available in 32-36 inch, standard size 35 inch. Art. no. JPXTI, **EUR 350.-**

9 JuCad Jumbo putter grips

Upgrade your putter with this exclusive putter grip. The soft and grippy material ensures a good putting feeling. Wide range of colours, matching most brands and types of putters. Art. no. JPG1 to JPG12, **EUR 20.-**

JuCad travelcover

The manoeuvrable and extremely hard-wearing JuCad travel covers ensure that your golf equipment is travelling securely! Your JuCad trolley fits together with your golf bag inside the JuCad travelcover. Suitable for all JuCad manual and electric trolleys with a folding measure of up to 65x35x15 cm / 25.5x23.5x5.9 inch.
